PROFILE

I am a data-driven and detail-oriented Data Analyst with hands-on experience in SQL, Power BI, Excel, Python, and Tableau. I specialize in building interactive dashboards and writing optimized queries to analyze real-world datasets. My work focuses on uncovering actionable insights to support informed business decisions. I'm passionate about data storytelling and delivering clear, impactful reports.

PROJECTS

Indian Literacy Rate Dashboard **Power BI, Excel**

- Built an interactive dashboard on state-wise and gender-based literacy in India.
- Visualized KPIs, trends, and regional disparities using slicers and maps.

Retail Sales Data Warehouse **SQL Server**

- Analyzed retail transaction data to uncover trends in profit, sales, and customer orders.
- Wrote complex SQL queries to extract actionable business insights.

IPL 2025 Team Comparison Dashboard **Excel**

- Developed a dynamic comparison dashboard (PBKS vs RCB and others).
- Used slicers, KPIs, and win/loss breakdown visuals.

Sales & Customer Dashboard **Tableau**

- Created a dynamic dashboard to track total sales, profit, and top customers using KPIs and filters.
- Analyzed customer behavior and subcategory-wise performance to derive actionable business insights.

Lung Cancer Dataset Analysis **Python (Pandas, Matplotlib)**

- Performed exploratory data analysis on patient data.
- Identified trends and built visual reports with charts and summaries.
